RAPID Credentialing Overview:

OTC is currently offering a RAPID credentialing course in order to help students earn professional certifications using an accelerated format. These courses are intended for current IT professionals who are looking to earn additional professional certifications in areas that are in high demand in our local economy. These course are not a replacement for our traditional courses, but are intended to bridge the gap for those looking to expand their knowledge and skill set in the quickest and most economically feasible way possible.

Again, this course is intended for current IT professionals looking to advance their career as a Cybersecurity Analyst. Students registering for this course should already have their Network+, Security+ or an equivalent certification and also have some hands-on-experience in the field. This course is **NOT** for novice computer users. Students taking this class should anticipate spending additional time studying and completing labs on their own time.

CySA+ will verify the successful candidate has the knowledge and skills required to:

- Leverage intelligence and threat detection techniques
- Analyze and interpret data
- Identify and address vulnerabilities
- Suggest preventative measures
- Effectively respond to and recover from incidents

This program will require that students attend 6 Saturday sessions from 9:00 am to 5 pm. The cost of the program is all inclusive, meaning that all of the following items are included for a single price.

Direct instruction (Six Saturdays)

Study material – CertMaster \$349.00
